EDUCATION

2010-2014 **Virginia Polytechnic and State University**
B.S., Psychology

RESEARCH POSITIONS

2015-PRES **Senior Imaging Analyst.** *University of Pennsylvania, Department of Psychiatry.*
Responsibilities include management, processing, and analysis of data from the 2000+ subject multimodal Philadelphia Neurodevelopmental Cohort (PNC) neuroimaging and behavioral dataset.

2013-2014 **Research Assistant.** *Virginia Tech Carilion Research Institute, Department of Psychiatry and Behavioral Medicine.*
Led acquisition of behavioral and functional magnetic resonance imaging neuroeconomic data.

2012-2014 **Research Assistant.** *Virginia Polytechnic and State University, Department of Psychology.* Built a functional magnetic resonance imaging retinotopic stimulus, used for mapping of the human visual cortex.

ACADEMIC AND PROFESSIONAL HONORS

2014 Undergraduate Award for Research Excellence
2013 Dean's List

PROGRAMMING SKILLS (+++ = advanced)

+++ R, BASH, MATLAB, PYTHON
++ SAS HTML, CSS
+ C++, SQL

PEER-REVIEWED PUBLICATIONS

9. Ciric R, **Rosen AFG**, Erus G, Cieslak M, Adebimpe A, Cook PA, Bassett DS, Davatzikos C, Wolf DH & Satterthwaite TD. Mitigating head motion artifact in functional connectivity MRI. *Nature Protocols* 1 (2018). doi:10.1038/s41596-018-0065-y
8. Pehlivanova M, Wolf DH, Sotiras A, Kaczkurkin A, Moore TM, Ciric R, Cook PA, Garcia de La Garza A, **Rosen AFG**, Ruparel K, Sharma A, Shinohara RT, Roalf DR, Gur RC, Davatzikos C, Gur RE, Kable JW & Satterthwaite TD. Diminished Cortical Thickness is Associated with Impulsive Choice in Adolescence. *J. Neurosci.* 2200–17 (2018). doi:10.1523/JNEUROSCI.2200-17.2018
